The Audio Files

96FM & 95.7FM

Join Jez Sallis, the Drivetime presenter, on BBC Radio Cambridgeshire between 6pm and 7pm every Thursday for live bands, live interviews and the latest on the local music scene...

2006 has been a bumper year for the Audio Files and thank you for all your support and to all the bands that have been on the show.

The last act of the year was 'Christmas cracker' Sara Mitra whose soulful yet jazzy performance almost reduced me to tears! This girl has the voice of an angel, and Philip, who accompanied her on the largest organ that has ever graced the Audio Files' threshold, was sublime.

Sara is a regular at the Elm Tree pub in Cambridge, so catch her while you can, and you can listen to her live performance of "Stars" on the link below, please do, you won't regret it!
